

ORDINANCE NO. _____

AN ORDINANCE OF THE TOWN OF FORT BRANCH, INDIANA, concerning the use of certain streets in said Town, and providing for the regulation of the parking of vehicles thereon, providing a method of enforcement, and prescribing penalties for violations thereof, and repealing all ordinances or parts of ordinances in conflict herewith, and declaring an emergency.

WHEREAS many of the streets of the Town of Fort Branch, Indiana are of insufficient width, and traffic in said Town, and over said streets is so heavy as not to permit un-regulated parking of vehicles on said streets, and WHEREAS public safety and the general welfare of the people of the said Town will be promoted and benefited by the adoption of traffic restrictions governing the use of said streets and the parking of vehicles thereon; THEREFORE,

BE IT ORDAINED BY THE BOARD OF TRUSTEES OF THE TOWN OF FORT BRANCH, INDIANA:

use of certain streets in said Town, and providing for the regulation of the parking of vehicles thereon, providing a method of enforcement, and prescribing penalties for violations thereof, and repealing all ordinances or parts of ordinances in conflict herewith, and declaring an emergency.

WHEREAS many of the streets of the Town of Fort Branch, Indiana are of insufficient width, and traffic in said Town, and over said streets is so heavy as not to permit un-regulated parking of vehicles on said streets, and WHEREAS public safety and the general welfare of the people of the said Town will be promoted and benefited by the adoption of traffic restrictions governing the use of said streets and the parking of vehicles thereon; THEREFORE,

BE IT ORDAINED BY THE BOARD OF TRUSTEES OF THE TOWN OF FORT BRANCH, INDIANA:

SECTION 1. From and after the passage of this ordinance vehicles shall park, or be permitted to park, on the streets below set out, only in the manner and position, and portion of such streets, as

follows, to-wit: PARKING SHALL BE PROHIBITED AT ALL TIMES ON THE SOUTH SIDE OF VINE STREET FROM MCCREARY STREET TO MAIN STREET; WEST SIDE OF MAIN STREET FROM WILLIAMS STREET TO LOCUST STREET; EAST SIDE OF MAIN STREET FROM LOCUST STREET TO STRAIN STREET; BOTH SIDES OF STRAIN STREET FROM MAIN STREET TO MAIN STREET AND 50 FEET SOUTH ON MAIN STREET; SOUTH SIDE OF WALNUT STREET FROM ELM STREET TO MAIN STREET; SOUTH SIDE OF LOCUST STREET FROM WEST SIDE OF FORT BRANCH TOWN

said streets for violations hereof, and upon the discovery of such violation shall affix in a prominent place upon such vehicle in violation of this ordinance a printed notice of such violation, and shall at the same time make out a duplicate/^{or stub}of such notice and file said duplicate with the Clerk-Treasurer of said Town.

The form of such notice shall be as follows:

No. _____

POLICE DEPT. Fort Branch, Indiana.

Notice of Automobile Law Violation

To Driver of Auto License No. _____

You are hereby notified to appear in the office of the Clerk-Treasurer of the Town of Fort Branch, Indiana on the _____ day of _____ 19_____, to answer charge of violating traffic regulations.

_____ Officer

By Order of _____ Town Marshal.

shall at the same time make out a duplicate/of such notice and file
said duplicate with the Clerk-Treasurer of said Town.

The form of such notice shall be as follows:

No. _____

POLICE DEPT. Fort Branch, Indiana.

Notice of Automobile Law Violation

jurisdiction, charging such person with such violation of this Ordinance.

SECTION 4. All moneys collected by said Clerk-Treasurer under the provisions of this Ordinance shall deposited by him to the Street Fund of said Town.

SECTION 5. All laws and parts of laws in conflict herewith are hereby repealed.

SECTION 6. WHEREAS an emergency exists for the immediate taking effect of this Ordinance, the same shall be in full force and effect from and after its passage.

BOARD OF TRUSTEES

(SEAL)

Attest:

Edm O Wood
Clerk-Treasurer

The above and foregoing ordinance was read, passed to second reading,

MUNICIPAL CODE OF FORT BRANCH, INDIANA

PART I - HEALTH.
DIVISION A.

An ordinance regulating the method of sewage and waste disposal: The construction of "Building Sewers", and the connections to, and the use of, the sewage system in the Town of Fort Branch, County of Gibson, Indiana, and imposing a penalty for violation of the provisions of this ordinance, and repealing certain ordinances.

Be it ordained by the Board of Trustees of the Town of Fort Branch, Indiana, that:

Section 1. Definitions: For the purpose of this ordinance the sewerage system shall be deemed to consist of sanitary sewers, storm sewers, and combined sewers, defined as follows:

(a) A sanitary sewer is a sewer intended to receive domestic sewage and treated or weak industrial waste without the admixture of surface or storm water.

(b) A storm water sewer is a sewer intended to receive storm and surface water, street wash, or drainage, but exclude domestic sewage or industrial wastes.

(c) A combined sewer is a sewer intended to receive domestic sewage, treated or weak industrial wastes, surface and storm water. For the purpose of this ordinance combined sewers shall also include intercepting sewers,

For the purpose of this ordinance a building sewer is defined as that part of the horizontal piping of a building drainage system extending from the outside of the building or end of the inside plumbing system to, and including, the connection with the Municipal

ordinance, and repealing certain ordinances.

Be it ordained by the Board of Trustees of the Town of Fort Branch, Indiana, that:

Section 1. Definitions: For the purpose of this ordinance the sewerage system shall be deemed to consist of sanitary sewers, storm sewers, and combined sewers, defined as follows:

(a) A sanitary sewer is a sewer intended to receive domestic sewage and treated or weak industrial waste without the admixture of surface or storm water.

(b) A storm water sewer is a sewer intended to receive storm and surface water, street wash, or drainage, but exclude domestic sewage or industrial wastes.

(c) A combined sewer is a sewer intended to receive domestic sewage, treated or weak industrial wastes, surface and storm water. For the purpose of this ordinance combined sewers shall also include intercepting sewers.

For the purpose of this ordinance a building sewer is defined as that part of the horizontal piping of a building drainage system extending from the outside of the building or end of the inside plumbing system to, and including, the connection with the Municipal Sewage System.

Section 2. Discharge of wastes in sewers: It shall be unlawful for any owner, operator or lessee of any residence, factory, shop, garage, filling station, institution, business, buildings, or industries.

(a) To discharge into any sewer or drain connection to the sewerage system, any oils, greases, fats, acids, chemicals, iron or mineral wastes, ashes or cinders, garbage, dead animals, rags, hair, or other materials which may cause clogging, or which may be injurious to

- Section 3. Licensed Persons to do Work: No building sewer to be laid, altered, or repaired except by or under the supervision of a person or persons licensed by the Town of Fort Branch, Indiana, to do such work.
- Section 4. Permit: A permit shall be secured from the Town of Fort Branch, Indiana by the owner of the property or by his authorized agent before connecting to or tapping a municipal sewer; altering or laying a building sewer to or from any sewer which is a part of the municipal sewerage system. Application for a permit shall be made on a blank form furnished for that purpose. Each application shall give the precise location of the property, the name of the owner and the name of the person employed to do the work. No permit shall be deemed to authorize anything that is not stated in the application. When the permit has been granted, the Town of Fort Branch, Indiana, shall through its duly constituted authority designate the position or location of the "Y" branch in the street. After the work has been done, the person or persons securing the permit shall file in the office of the Town Clerk of Fort Branch, Indiana, on blank forms furnished for the purpose, a correct statement of the work done under the permit, and where required, a sketch showing the location of the building sewer.
- Section 5. Sewer Pipes: Material for the building sewer shall be of standard salt glazed vitrified sewer pipe not less than 6" in diameter and shall conform to the requirements of the specifications for clay sewer pipe of the American Society for Testing and Materials.

person or persons licensed by the Town of Fort Branch, Indiana, to do such work.

- Section 4. Permit: A permit shall be secured from the Town of Fort Branch, Indiana by the owner of the property or by his authorized agent before connecting to or tapping a municipal sewer; altering or laying a building sewer to or from any sewer which is a part of the municipal sewerage system. Application for a permit shall be made on a blank form furnished for that purpose. Each application shall give the precise location of the property, the name of the owner and the name of the person employed to do the work. No permit shall be deemed to authorize anything that is not stated in the application. When the permit has been granted, the Town of Fort Branch, Indiana, shall through its duly constituted authority designate the position or location of the "Y" branch in the street. After the work has been done, the person or persons securing the permit shall file in the office of the Town Clerk of Fort Branch, Indiana, on blank forms furnished for the purpose, a correct statement of the work done under the permit, and where required, a sketch showing the location of the building sewer.
- Section 5. Sewer Pipes: Material for the building sewer shall be of standard salt glazed vitrified sewer pipe not less than 6" in diameter and shall conform to the requirements of the specifications for clay sewer pipe of the American Society for Testing Materials. Suitable and approved pipe made from other materials may be accepted.
- Section 6. Connections at "Y" Branch: The connection between the building sewer and the municipal sewer shall be made at the "Y" Branch, provided there is one. If no "Y" branch was left in the municipal sewer for the building sewer and the municipal sewer is not over 12" in diameter a "Y" branch shall be installed in the municipal sewer at the desired location by the owner of the building sewer. Where the municipal sewer is over 12" in diameter and where no "Y" branch was left for the building sewer, a hole may be cut in the municipal sewer large enough to receive the end of the building sewer and the connection made so that the building

- Section 8. Barricades: Proper barricades and lights shall be maintained on the banks of the trenches to guard the public against accidents during the progress of the work. In back-filling the material shall be carefully placed and packed around the pipe to provide a uniform bearing and to keep the pipe in proper position. No stones, brick or the like shall be used in the backfill until there has been a depth of at least 18 inches of fine earth or gravel placed over the pipe. If blasting of rock is required in excavating, the utmost precaution shall be used to cover the blast with suitable cover such as mats, timber, brush, etc., so that life and property in the vicinity will not be jeopardized.
- Section 9. Pre-treatment of Industrial Wastes: Whenever the waste from any factory, mercantile, manufacturing or industrial enterprise is found to interfere with the successful operation of the municipal sewerage system, or of the sewage treatment plant, written notice shall be given ordering the offender to construct a waste treatment plant to give the wastes pre-treatment before it is discharged into the municipal sewerage system. The pre-treatment shall be sufficient to reduce the strength or characteristics of the wastes to such a degree that it will not interfere with the successful operation of the municipal sewerage system or the sewage treatment plant. Said notice shall be served upon the owner or lessee of said factory, mercantile, manufacturing or industrial enterprise by the Attorney of the Town of Fort Branch, Indiana. The notice shall set a date or time limit for compliance with the order.

Each filling one material shall be carefully placed and packed around the pipe to provide a uniform bearing and to keep the pipe in proper position. No stones, brick or the like shall be used in the backfill until there has been a depth of at least 18 inches of fine earth or gravel placed over the pipe. If blasting of rock is required in excavating, the utmost precaution shall be used to cover the blast with suitable cover such as mats, timber, brush, etc., so that life and property in the vicinity will not be jeopardized.

Section 9. Pre-treatment of Industrial Wastes: Whenever the waste from any factory, mercantile, manufacturing or industrial enterprise is found to interfere with the successful operation of the municipal sewerage system, or of the sewage treatment plant, written notice shall be given ordering the offender to construct a waste treatment plant to give the wastes pre-treatment before it is discharged into the municipal sewerage system. The pre-treatment shall be sufficient to reduce the strength or characteristics of the wastes to such a degree that it will not interfere with the successful operation of the municipal sewerage system or the sewage treatment plant. Said notice shall be served upon the owner or lessee of said factory, mercantile, manufacturing or industrial enterprise by the Attorney of the Town of Fort Branch, Indiana. The notice shall set a date or time limit for compliance with the order.

It shall be prima facie evidence that a waste interferes with the successful operation of the sewage treatment plant if:

1. The waste contains free acidity.
2. The average 5 day biochemical oxygen demand or the suspended solids of the waste during only 6 hours period exceeds 400 ppm. (By 5 day biochemical oxygen demand expressed in parts per million, is meant the pounds of oxygen required for biochemical oxidation of the organic matter in one million pounds of sewage or waste in 5 days incubation at 20 degrees centigrade. By suspended solids, expressed in parts per million, is meant the pounds of solids physically suspended in one million pounds of sewage or wastes. The samples for the test shall be taken
